ABOUT DEPARTMENT OF EXTENSION EDUCATION

The mechanism of acquiring and transmitting knowledge involves three aspects which are closely interrelated. First, educating people in agriculture at different levels; second, the acquisition of knowledge through research, and third, the transmission of this knowledge to the farmers in the field. The College of Agriculture, Dapoli has been performing these functions effectively in various disciplines, since its inception i.e. 21st June 1965. The teaching, research and extension education work in the discipline of Extension Education began at College when a separate Extension Wing was attached to it, vide Government Resolution No. AGU/9165/24277/of 66, dated 18th May 1966.

1. Staff Position

The Extension Wing was initially provided with the posts of Professor (1), Assistant Professor (4), Extension Training Officer (1), Livestock Supervisor (1), Agricultural Assistant (6), Audio-Visual Operator (1), Junior Engineer (1) as technical staff and Assistant Superintendent (1), Senior Clerk (1), Junior Clerk (3), Driver (2), Cleaner (2), Fitter (1), Peon (5) and Watchman (1) as supporting staff.

Presently, the Department of Extension Education is having following staff.
